Steven,
FYI. I'd like to plug you into in this GIS Tool effort.
Jim

Subject: GIS Team Meeting

You are receiving this email because you have either been identified as a GIS team member or a member of your organization has been identified as a GIS team member. I would like to set up a meeting to discuss GIS and the evaluation of site data at the Portland Harbor site. I would like this conversation to focus on two key elements:

- 1) Near term GIS needs: Near term GIS needs are focused on the mapping of AOPCs, preparing for the AOPC retreat and the AOPC retreat itself.
- 2) GIS FS Support: This is a longer term need focused on the evaluation of site data to support the screening of remedial action alternatives (a screening check-in is scheduled for mid-October 2009) and the detailed evaluation of remedial action alternatives in the draft FS (the draft FS is expected in April 2010).

I would like to schedule a meeting within the next couple of weeks. I want to keep this group relatively small. Further, you may not need to attend every meeting or even participate at a high level of involvement. Please let me know if you are available and have the interest and we will go from there.

Thanks, Eric
